

HoverBar Duo

Adjustable arm for iPad

HoverBar is an adjustable arm that lets you expand how you use iPad. At your desk, HoverBar's weighted base allows you to use it as a desktop stand alongside your Mac with SideCar to keep an eye on your calendar, stock feed or for hands-free FaceTime collaboration. Install the clamp onto HoverBar, and attach it to the ledge of your desk, tables or to your kitchen cabinets - holding your iPad up off the counter so you can follow a recipe while keeping your iPad out of the spill zone.

Key facts:

- Includes both weighted desktop stand and shelf clamp for maximum flexibility
- Holds iPad up to two feet in the air and all the way down to the base
- Perfect for hands-free video calls, 2nd screen Mac Sidecar, iPad kitchen use, etc
- Creates a flexible iPad desktop workstation with external keyboard + trackpad

Compatibility:

- Fits all iPad models & sizes, even with most cases attached
- Clamp attaches to edges up to 1.5 inches thick
